

TARIQ AZIZ

Senior Frontend Engineer | React.js · TypeScript · Enterprise Web Applications

Bengaluru, India | +91 6361378854 | taziz7628@gmail.com | linkedin.com/in/tariq-aziz-b27132288 | github.com/tariqaziz123

PROFESSIONAL SUMMARY

Senior Frontend Engineer with 5 years of experience building enterprise-scale web applications using React.js, TypeScript, and JavaScript. Skilled in state management, reusable component architecture, and design systems, with hands-on experience in TailwindCSS, Ant Design, Material UI, and Progressive Web Apps (PWA). Experienced integrating REST and GraphQL APIs, implementing secure authentication, and working with Microsoft Azure. Comfortable with micro-frontend architecture, mentoring junior engineers, and collaborating cross-functionally within Agile teams across Travel Technology, FinTech, Financial Services, Analytics, and Real-Time Collaboration domains.

CORE SKILLS

React.js · TypeScript · JavaScript (ES6+) · Next.js (working knowledge) · Redux · Redux Toolkit · React Query · React Hook Form · Material UI · Ant Design · TailwindCSS · Progressive Web Apps (PWA) · Micro-Frontend Architecture · REST APIs · GraphQL · JWT · OAuth 2.0 · WebRTC · WebSockets · D3.js · Jest · HTML5 · CSS3 · Git · Agile/Scrum

Cloud: Microsoft Azure (hands-on)

Basic / Working Knowledge: Node.js · Express.js · SQL / RDBMS · Docker · CI/CD

PROFESSIONAL EXPERIENCE

Senior Software Engineer | Mindpool Technologies (Client: Musafir)

Jan 2026 – Apr 2026

- Developed enterprise travel booking modules using React.js, TypeScript, and Material UI, building reusable, type-safe UI components for production release.
- Integrated REST APIs and implemented JWT/OAuth authentication to secure login and session management across the booking platform.
- Collaborated within a 30-member Agile team, contributing to code reviews and production releases on a regular sprint cadence.

Software Engineer | Data Template Infotech

Jul 2021 – Dec 2025

- Delivered enterprise applications across Financial Services, FinTech, Analytics, and Real-Time Collaboration, including Newcleus, Whiteboard.chat, Capability Radar, and Calque.
- Built a library of reusable React components using Material UI, Ant Design, and TailwindCSS, adopted across multiple projects to standardize UI development and reduce duplicate work.
- Implemented Role-Based Access Control (RBAC) and server-side search/filtering, strengthening application security and data-handling performance.
- Integrated REST and GraphQL APIs to power data-driven features across analytics and collaboration products.
- Mentored junior developers on React best practices and Agile delivery workflows, supporting team-wide code quality and onboarding.
